

POWER DISTRIBUTION

Global Outlets

Whilst we stock the Australian type outlets, Configurations for the world market are available upon request. These include US, UK and European / Singapore sockets.

All of MFB's Power Distribution Boards for the Australian market are manufactured in compliance with Certificate Number CS00383V issued by the Chief Electrical Inspector's Office of Victoria.

Horizontal Power Distribution Board

The Horizontal Power Distribution Board is 1ru high and mounts across the 19", 650, 700 or 800mm Mounting Angles.

The board is supplied fully wired with 6 outlets, a 2.5m lead and plug. Circuit breaker is fitted as standard on the Australian version only.

Hi Density Horizontal Power Distribution Board

This board is 3ru high with 10 outlets and suits 19", 650, 700 and 800mm wide racks. The board is supplied fully wired with a 2.5m lead and plug. Circuit breaker is fitted as standard on the Australian version only.
