# RFI/Industrial Plinth

This innovative cabinet plinth has been primarily developed for use with Industrial & RFI/EMI cabinets.

Modular in design, this plinth has levelling feet and adjustable holding down brackets accessible from the sides enabling adjustments to the mounting position without the need for cabinet access.

Additional features include optional gland plate covered cable entry at the front and/or back.

Also available is a removable ventilation grille to permit air entry to the cabinet when it is mounted on a solid floor.

Gland plate end comes complete with gland plates fitted. Vented end assembly is complete with levelling feet and fastening down brackets. This heavy duty plinth comes in a black powder coat finish. Increases overall height by 90mm.
